

## EVALUATING STUDENT-CREATED PROJECTS

**Title of project:**

**Take 10 minutes or more to review the project carefully. Then, complete the following questions and prepare for a group discussion.**

Why is the topic engaging? Relevant to students? Presented in an interesting manner? Why should students learn about this topic?

What was the main focus of the project? Was it clearly communicated and well articulated? Were you left with an understanding of their intent? Was there enough research done and did the students understand their topic?

Was the technology put to good use, or did it get in the way of their message? Were there glitches? Problems? Mistakes?

How were the students creative in presenting their message/information? (Technology, writing style, images, humor, etc.)

Why would your students be interested in learning from this project?

How would you introduce ThinkQuest projects to your students?
